CASE STUDY · E-COMMERCE PERFORMANCE · JAN 2024 – JUN 2026

How is the shop

50,000 orders cleaned and joined across customers, products and payments — three findings change where the next rand of effort should go.

RECOGNISED REVENUE

\$2992k

42,849 completed orders

TOTAL ORDERS

50,000

All order states

AVG ORDER VALUE

\$69.82

Across recognised orders

RECENT RUN-RATE

\$71k / mo

Feb-Jun 2026 -30%

FINDING 01

Revenue is flat through 2025, then drops about 30% from February 2026.

FINDING 02

Electronics carries half of revenue on far fewer units than Accessories.

FINDING 03

Deeper discounts shrink average order value instead of growing it.
